

The Avalanche.

O. PALMER, EDITOR & PROPRIETOR.

THURSDAY, NOV. 24, 1890.

Entered at the Post Office at Grayling, Mich., as second-class matter.

POLITICAL AND MISCELLANEOUS.

It would be well for our democratic friends to remember that it was the stay-at-home republicans, and not their party, which brought about the revolution.

The president has issued the annual proclamation setting apart Thursday Nov. 27th, as a national Thanksgiving day. Rather a hard year for a republican president to lead off in Thanksgiving. — *West Bay City Post.*

A Philadelphia syndicate, headed by John D. Rockefeller and John Vane, maker, will erect numerous tin plate factories throughout the country. Near Chicago one thousand acres of land has been purchased for one of these concerns. — *Detroit News.*

Hon. Stanley M. Turner, who managed Mr. James M. Turner's campaign says he is out of politics, forever and a day. He has gone to his pine woods in Rosecommon county and says he will not come out until next spring, when all he will have to do with politics will be to vote. — *Det. News.*

Wheat and clover is in fine shape to receive its winter covering. Both promise better than ever before in this country. One reason may be that our farmers are getting in better shape and the seed has been put in, in proper time and the land better tilled.

Don't be alarmed and think the country is going to the dogs because of the great financial panic following so quickly the recent democratic "tidal wave." The McKinley law still lives and the faith of the people in its power to protect, will be greatly strengthened by this new evidence that Democratic success means national disaster. — *Detroit Tribune.*

The farmers of Crawford county have every reason for encouragement. The past season has been no more favorable than we have a right to expect, and all kinds of crops have been satisfactory. The drought of the three preceding years was disheartening, but it may never be repeated.

The American *Reynolds* truthfully says that "the result of the election is chiefly due to bold and unscrupulous lying respecting the effect of the new tariff upon prices." In Michigan it was partly due to bold and unscrupulous lying about Republican candidates. — *Detroit Tribune.*

The democratic returning boards in this state are running things with a high hand, and are counting out republicans who were elected, right and left. Even the shameless *Detroit Free Press* is moved to call a halt as a matter of policy. The democratic party is unfit for government. — *Day City Tribune.*

Last Sunday a man, named Chambers, committed suicide at Mud Lake by shooting himself with a rifle. The ball entered his forehead and the top of his head was blown off. He was living with a family in Ward's old camp. He was about 35 years old and had a wife and child and a mother-in-law. A family row, in which the latter figured immediately preceded the rash act. — *Harrisville Review.*

The face of the returns give Hall a small majority over Kiehl in this district. Owing to the gross irregularities in this and Osceola counties, however his seat will no doubt be contested. — *Northern Democrat.* All the irregularities we have heard of were committed by democrats, and the greatest, which we approve of, and which we suppose the author of the above refers to, was the slipping of tickets by his own party thereby causing his defeat.

Among other misrepresentations of the McKinley bill, the Democrats claimed that it shut off this country from foreign markets, yet for the first month after the bill became a law, the exports from New York City alone increased about \$9,000,000. Does that look as if the new tariff had shut this country off from the foreign markets? — *Exchange.*

A study of the returns will show that the Republicans have only themselves to thank for their defeat. They have been beaten not by the enemy, but by their own apathy. Edwin D. Winnans has been elected by a plurality of 12,000 votes, yet he received 32,000 fewer votes than did Wellington B. Bart two years ago, when the latter was beaten by over 17,000. In round numbers 100,000 Michigan voters stayed away from the polls at the election this year, without making any allowance for the increase in population. Two years ago 475,000 votes were polled; this year only about 375,000. In not a single county in the lower peninsula were there as many Democratic votes polled this year as two years ago. — *Detroit Tribune.*

A Great American Magazine.

The Success of "The Century" and its Plans for 1891.

The "Century Magazine" is now so well-known that to tell of its past success seems almost an old story. The New York "Tribune" has said that it and its companion, "St. Nicholas for Young Folks," issued by the same house, "are read by every one person in thirty of the country's population." and large editions of both are sent beyond the seas. It is an interesting fact that a few years ago it was found that seven thousand copies of "The Century" went to Scotland, quite a respectable edition itself. The question in England is no longer "Who reads an American book?" but "Who does not see the American Magazine?"

A few years ago "The Century" about doubled its circulation with the famous War Papers, by General Grant and others, adding many more readers later with the Lincoln History and Kennan's thrilling articles on the Siberian Exile System. One great feature of 1891 is to be

"The Gold Hunters of California," describing that remarkable movement to the gold fields in '49, in a series of richly illustrated articles written by survivors, including the narratives of men who went to California by the different routes, accounts of the gold discoveries, life in the mines, the work of vigilance committees, by the chairman of the committees etc., etc. Gen. Fremont's last writing was done for this series. In November appears the opening article, "The First Emigrant Train to California,"— crossing the Rockies in 1841,— by General Bidwell, a pioneer of pioneers. Thousands of American families, who had some relative or friend among "The Argonauts of 1849" will be interested in these papers.

Many other good things are coming,— the narrative of an American's travels through that unknown land Tibet (for 700 miles over ground never before trod by a white man); the experiences of escaping War Prisoners; American Newspapers described by well-known journalists; accounts of the great Indian Fighters, Custer and others; personal anecdotes of Lincoln, by his private secretaries; "The Faith Doctor," a novel by Edw. Eggleston; with a wonderful rich programme of novelettes and stories by most of the leading writers, etc., etc.

It is also announced that "The Century" has purchased the right to print, before its appearance in France or any other country, extracts from advance sheets of the famous Talleyrand Memories, which have been secretly preserved for half a century—to be first given to the world through the pages of an American magazine. All Europe is eagerly awaiting the publication of this personal history of Talleyrand— greatest of intriguers and diplomats.

The November "Century" begins the volume, and new subscribers should commence with that issue. The Subscription price (\$4.00) may be remitted directly to the publishers, The Century Co., 23 East 17th Street, New York, or single copies may be purchased of any newsdealer. The publishers offer to send a free sample copy—a recent back number—to any one desiring it.

Just what the Household wants. It is only necessary to look at the December Peterson to decide that it is the magazine for the family. Next year Peterson will hold its jubilee. To have been for fifty years the prime favorite in thousands of households is something to be proud of, and its popularity steadily increases. For 1891 the magazine will be enlarged, its attractions more varied, and its illustrations more abundant. This number seems about as full of handsome pictures as it can hold. Besides admirable steel and other engravings, there are various copiously illustrated articles. A capital paper, "Some Ice Carnival Sketches," gives, in addition to numerous smaller designs, two splendid full page cuts, "A Frozen Lake in Holland," and a "Snowshoe Race over Hurdles." "A Problem Never Solved" is the best short story Edgar Fawcett has ever written. The fashion department will save any woman money enough to double her dresses, enabling her to make them at home; and the decorative designs will help her to ornament her rooms at an almost nominal price. The lady who neglects to have Peterson on hand for 1891 will make a great mistake. Now is the time to get up a club. Terms \$2.00 a year, 2 copies \$3.50, 3 copies \$4.50, with a handsome premium to the getter up of a club; 4 copies \$5.40; 6 copies \$9.00, with an extra copy of the magazine to the getter-up of a club. A sample copy with full particulars will be sent to club raisers. Address: Peterson's Magazine, 306 Chestnut Street, Philadelphia, Pa.

The result of the election last week was only history repeating itself. In '82 there was such another election, and the democrats then, as now, thought they owned the earth. New York that year elected Cleveland governor over Folger by over 200,000 votes. Pennsylvania elected Pattison, their candidate elected last week, by over 40,000. Massachusetts elected a Democratic governor by 15,000. In 1884 the Republicans carried all of them, but were counted out in New York and Cleveland was given it by a plurality of 1,017. — *Cheboygan Tribune.*

"A Merry Christmas!" is the cheery greeting shining from every page of that ideal monthly, *Demorest's Family Magazine*, the December number of which—a genuine holiday number—is just at hand. What one will not know about preparing for Christmas, about trimming the tree, and suitable gifts and good cheer and how to heartily enjoy the merry Christmas-tide, after reading this charming Magazine, is not worth knowing. "Lighting the way for Santa Claus" is the very appropriate introductory water-color, the rich humor of which will be highly appreciated by the little ones and by the "children of a larger growth" as well; and the page engraving that follows, "Raphael painting the Virgin and Child," is from a noted painting, and will be appreciated for its historic value as well as its beauty. Besides these there are at least two hundred and fifty other handsome illustrations, for this representative Family Magazine is noted for the quantity and good quality of its pictures. "In the Streets of Paris" is a profusely illustrated article, in reading which one is in fancy transported to that charming city; and if one prefers to visit nearer home, the description and exquisite pictures of the Washington residence of Senator Sawyer of Wisconsin, afford a revelation of beauty. There are splendid stories and poems; and every department is bristling of just what you want to know in its special line. "Sanitarium" treats of that sad affliction "Obesity," and the common-sense treatment recommended is bound to be efficacious; and "Our Girls" will be delighted with the comedietta in their special department. But our advice is, subscribe for this splendid Magazine, and you can have a rare treat each month. It is only \$2 a year, and is published by W. Jennings Demorest 15 East 14th Street, New York.

School Notes.

Four new pupils enrolled Monday morning.

Owen Jackson was detained from school all last week, by sickness.

We are glad to note that the repairs about our school building are nearing completion.

A home-made table was added to the furniture in the laboratory last week.

Mr. Alexander visited us on Wednesday, and gave the high school pupils a very practical talk.

Mrs. Marsh and Mrs. Canfield were welcome visitors at school last week.

The primary pupils had a holiday on Friday. Their teacher met with a sad accident and was unable to teach.

By request of the Director, the pupils are required to play on the street for the present. The school yard will be used for a play ground as soon as the ground is well sodded over. The ground has always had the appearance of a poorly plowed field but now is fast improving.

We have a well managed primary school. Miss Bailey is an indefatigable worker and deserves the support of all who send pupils to her school. If the pupils in this department are not advancing, it is not the teacher's fault. If you wish to be entertained for half an hour gratis, visit this family of over eighty children and see them work.

The Ladies' Aid Society of the Presbyterian Church, will meet every Thursday afternoon at Hempstead's hall, for work. All persons interested are cordially invited.

Mrs. H. MASTERS, Pres.

C. L. DeWaele, of St. Helen, has moved to Grayling and opened a law office. While we regret the removal from our county of such a man as Charles, we cannot help but feel that what is Roscommon's loss is Grayling's gain, and we wish him every success in his new location. — *Roscommon News.*

Drop—At the residence of her son, J. M. Jones, in this village, Sunday Nov. 10th, HARRIET L. BUSH, aged 86 years and 6 days.

Deceased came from Ohio to Michigan, and settled in Saginaw county in 1852, where she resided, most of the time in Ciesaning. She came here last spring, where her last days were made comfortable and happy with her only living son, the other having been killed in the army.

Her faculties were retained in an extraordinary degree until within a few days of her death, enjoying society, books, and keeping track of the current topics of the times.

The funeral services were conducted by Rev. Mr. Taylor, of the M. E. Church, and were largely attended.
